

HRS-FC-1

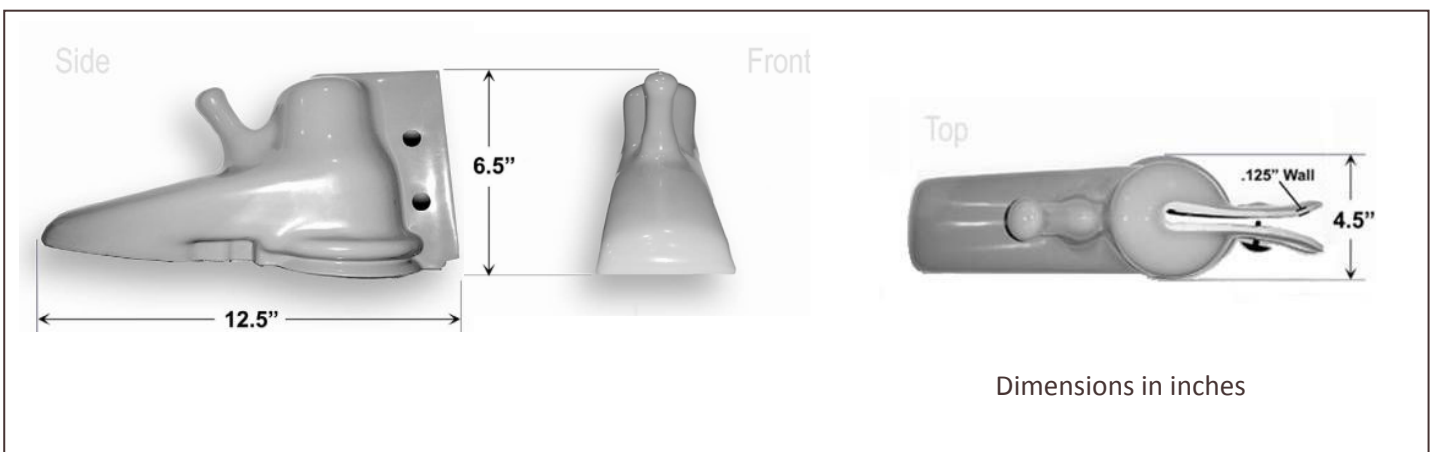

Hendrix Raptor Shields are designed to protect wildlife from live line contact, reduce power outages, and assist in the implementation of your Avian Protection Plan.

The HRS-FC-1 is designed for use with Fuse Cutouts to provide complete coverage of the upper conductor connector and contact assembly. It is sized to fit 15kV and 27kV Class Distribution Cutouts manufactured by ABB, Hubbell and MacLean. The cover is made from UV stabilized plastisol-PVC to provide long service life under harsh conditions.

- Installs with live-line tools
- Resistant to impact damage and vandalism
- Made in USA

PRODUCT DATA

Characteristic	HRS-FC-1
Description	Fuse Cutout cover with two (2) connector pins
Application	Fits 15 - 27 kV Class models: ABB ICX or NCX Cutouts, silicon-rubber or porcelain Hubbell Standard or Linkbreak Cutouts, polymer or porcelain MacLean XS Polymer or Porcelain Cutouts
Weight	1.3 lbs.

CAUTION: Raptor Shields are not intended as a safety covering for personnel protection
