

MG Messenger Dead-end Grips MS Messenger Splices

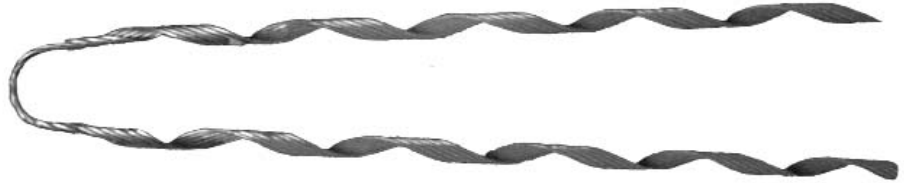

OVERHEAD PRODUCTS

MG-4122, MG-4128, MG-4131, MG-4179 Messenger Dead-end Grips

Description:

The MG-4122, MG -4128, MG-4131 and MG-4179 Messenger Dead-end Grips are pre-formed type grips for dead-ending spacer cable messenger wire.

Application:

Messenger dead-end grips have a holding strength equal to the messenger strength. A thimble clevis must be used to prevent damage to the loop of the messenger grip.

Catalog No.	Messenger Wire	Weight (lbs)	Length (inches)	Color Code

MG-4179	4/0 AW 0000127 AWA	7.0	63	Black

MS-4122, MS-4128, MS-3258, MS-5272 Messenger Splices

Description:

The MS-4122, MS-4128, MS-3258 and MS-5272 are pre-formed type splices for connecting two lengths of messenger wire. The splices consist of three sets of spirally formed rods.

Application:

Messenger splices are used for splicing or repairing messenger wire. Messenger splices have a holding strength equal to the messenger strength. To restore full conductivity, a bare aluminum jumper wire should be installed across the splice.

Catalog No.	Messenger Wire	Weight (lbs)	Length (inches)	Color Code
MS-4122	7 #8 AW 252 AWA	1.4	38	Orange
MS-4128	7 #6 AW 052 AWA	3.0	55	Blue
