

AWDE Messenger Dead-end Grips

AWLS Messenger Splices

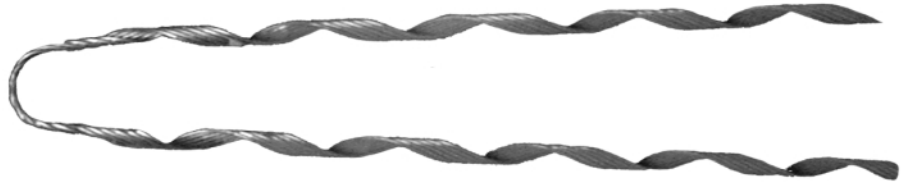

OVERHEAD PRODUCTS

AWDE-4122, AWDE-4128 Messenger Dead-end Grips

Description:

The AWDE-4122 and AWDE-4128 Messenger Dead-end Grips are pre-formed type grips for dead-ending spacer cable messenger wire.

Application:

Messenger dead-end grips have a holding strength equal to the messenger strength. A thimble clevis must be used to prevent damage to the loop of the messenger grip.

Catalog No.	Messenger Wire	Weight (lbs)	Length (inches)	Color Code
AWDE-4122	7 # 8 AW 252 AWA	1.1	32	Orange
AWDE-4128	7#6 AW 052 AWA	2.3	39	Blue

AWLS-4122, AWLS-4128 Messenger Splices

Description:

The AWLS-4122 and AWLS-4128 are pre-formed type splices for connecting two lengths of messenger wire. The splices consist of three sets of spirally formed rods.

Application:

Messenger splices are used for splicing or repairing messenger wire. Messenger splices have a holding strength equal to the messenger strength. To restore full conductivity, a bare aluminum jumper wire should be installed across the splice.

Catalog No.	Messenger Wire	Weight (lbs)	Length (inches)	Color Code
AWLS-4122	7# 8 AW 252 AWA	1.4	38	Orange
AWLS-4128	7# 6 AW 052 AWA	3.0	55	Blue
