

BA3-15, BA3-35 Angle Brackets

Description:

The BA3-15 and BA3-35 are angle brackets used with Hendrix Spacer Cable Systems. The brackets are formed using 3.0" channel and are hot dip galvanized after fabrication. The BA3-35 includes welded gussets for maximum strength.

Benefits:

- Maintains the triangular configuration of the phase conductors.
- Simple, compact alternative to crossarm angle construction
- 8.0" mounting hole spacing conforms to standard pre-drilled poles for ease of installation

Application:

Pole mounting is accomplished using thru-bolts (not included).
